Top ten search terms for February on mallowstreet revealed

mallowstreet, the platform bringing the institutional pensions industry together to help solve the pensions and savings crisis, today publishes the top ten search terms for February from its 3,000 strong community.

Stuart Breyer, CEO at mallowstreet, commented: "It's very positive as we enter a busy period for pensions, to see our community's top searches being around governance and regulation. A greater understanding and making steps to improve the running of schemes is vital for trustees and this is reflected by the interest from our community for getting to grips with these issues.

"As we are now weeks away from the start of formal negotiations with Brussels, it is interesting to see terms such as Regulation / MFID and Brexit appearing. Having just witnessed an almost entirely pensions-free speech from the Chancellor yesterday, one might wonder if this is intentional, or owing to a preoccupation with Brexit."

TOP FEBRUARY SEARCH TERMS
1. Scheme Governance
2. LISA
3. Regulation / MIFID
4. European Equities
5. Inflation
6. Brexit
7. Defined Contribution
8. De-Risking
9. Infrastructure
10. Credit
